A clear path to growth

Partners are the key of Censhare's success.

With decades of collaboration, we built a proven path to drive success together with our partners. Here is our 4 step growth plan...

Partnership models

Censhare offers two partnership models: one is focused on servicing, and implementing, and the other is focused on selling. Both come with extensive enablement, collaboration, and enable partners to build scalable revenue models.

Solution Partner

Focused on implementing and servicing our solutions for customers. Our collaboration provides the followings for our partners:

- Shared planning and goals
- Technical enablement program
- Ability to build and sell own solutions on Censhare
- Ability to create new recurring revenue streams through custom developed solutions

Business Partner

Our Business Partners are primarily focused on selling Censhare services. However, all the benefits available to our Solution Partners are also accessible to them. In addition to the standard partner benefits, our Business Partners also have access to the following:

- Go-to-Market enablement program
- Attractive compensation model
- Shared Go-to-Market activities with Censhare

Censhare's partner programs are designed to provide the tools, training, and go-to-market support you need to succeed. Discover how partnering with Censhare can unlock new opportunities for your business – reach out to our team today to get started.
